SAMPLING TIP

This brown ale has a marked ruby brown colour with a generous and lasting head. It has a distinctive aroma reflecting the wide range of ingredients used in its production. The fruitiness resulting from its fermentation blends harmoniously with a dominant liquorice and caramel flavour. The body is decidedly malty. The bitterness is the result of a complex alchemy between the fine hops and special malts used. These give St-Feuillien Brune a typical dark chocolate appearance. This beer creates an endless variety of sensations with a lingering taste and powerful aroma.
